* Based on Western Europe conditions

Save up to 50% application time

No more cutting required to remove nasty lasting bubbles

Slow adhesion makes it flexible to reposition your graphics

For a quick and perfect job done!

The adhesive micro-structure allows easy elimination of bubbles or wrinkles

The siliconised liner has been formed to obtain a 'snake skin texture' in the adhesive

FixFree by MF was specially designed for applicators who need a **quick set-up** to help their customers get **back to business** quickly. Thanks to the **revolutionary structure** bubbles and wrinkles are 'history'!
